Schedule of Classes New Features

Expanded search criteria: In addition to searching by GE, Writing II, Fiat Lux, and CUTF, we've added searches for diversity and service learning. The search criteria are dynamic and will only display when there is a class available in the term you've selected. For example, you will only see CUTF appear in the dropdown menu for winter and spring when those classes are offered. This also means if there are no classes in a subject area for a given term, that subject area won't be in the dropdown menu. (Especially helpful if your subject area code changes mid-year!)

Each search criterion also comes with an info box:

Once you search for a subject area, you can **filter** your results. Filters include: status, meeting information, instructor, requisites, level (lower, upper division & grad), and others. You can also click **Expand All Classes** to see all the offerings on that page.

Each of the blue links will open up an info box, such as clicking on "Instructor(s)".

Statuses are color-coded. Green for open, yellow for waitlist, and red for closed.
